OZO

IS not an imported article, nor is it prepared according to any of the numerous formulæ in use in England or elsewhere, it is the outcome of several years of critical research and careful experiments by a distinguished English Chemist (a member of Treacher and Co.'s staff) who, during a prolonged residence in India has acquired a thorough knowledge of the requirements of the climate, which has enabled him to invent a Beverage unrivalled for its pleasant flavour and beneficial effects.

The public should be careful to ask for the genuine article "Ozo," and avoid the numerous useless imitations now being offered throughout India.

SPARKLING VIVONE.

REGISTERED.

THIS MOST REFRESHING AND wholesome beverage possesses a sustaining and stimulating power much exceeding that of alcoholic liquors.

IT RESTORES NERVOUS WASTE, AND IS the most efficient of all temporary resorts when the system is deprived of those essentials to well-being, REST and SLEEP.

ITS DELICATE BOUQUET IS DUE TO the perfumed atmosphere of Lombardy and the Swiss valleys, recalling to Tourists agreeable memories of Asti Spumante and the rural hostelries of Southern Europe.

VIVONE IS A LIGHT WINE COMPARED with Asti, free from stale ferment flavour, and contains no tannin.

FOR ALL PURPOSES OF REFRESHMENT, it is vastly superior to anything alcoholic, as it gives an impulse to the digestive process, and a spur to vitality generally without disturbing the intellectual balance.

IT IS THUS THE BEST STIMULANT IN all pursuits or amusements requiring steady intellect and sustained nerve : *e.g.*, Cards, Billiards, Lawn Tennis, &c.

IT DISSIPATES MENTAL DEPRESSION, ennui, evening headache, fatigue, dislike to food, and restores cheerfulness, animation, and appetite.

SIMPLE EXPERIENCE WILL RENDER it an essential in every House, Club, Hotel, Ball-room, and place of Refreshment.

WHEN EXHAUSTED, TIRED OF LIFE, peevish, and without appetite after a hard day's work, a moderate draught of Iced Vivone *without admixture* will restore exhausted nature, and health will resume its sway over mind and body.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MAY 5.

CONSOLS in London yesterday were unchanged at 101⅞, French Rentes ½ higher at 120, Enfaced Rupee Paper unaltered at 84⅜ for Fours and 90⅞ for Fours-and-a-half.

Metals are as quoted by Reuter a week ago, and in the General Produce Markets no movement is recorded.

Piece-Goods in Manchester yesterday were quiet, and Cotton in Liverpool closed with supplies freely offered, the day's sales being estimated at 10,000 bales. In spot prices no alteration is reported, but Reuter says Surats, to arrive, were lower. In New York yesterday ready Mid.-Uplands were still quoted at 10 9-16 cents, but August shipment was given at 10·59 as against the previous day's quotation of 10·56 cents for July. This is generally interpreted as showing a decline, but it is difficult to say of what extent, as we cannot hear of any late quotations for August through private sources. The receipts at the ports continue liberal, the following being the comparison with the two previous years to date :—

	1881	1880.	1879.
Wednesday's receipts.....	7,000	4,700	2,700
Five days' do.	33,000	17,300	13,900
Total since 1st Sep.....	5,348,000	4,667,000	4,396,900

At the weekly beddings for Council drafts on India in London yesterday, of the 45 lacs offered Rs. 24,50,000 were allotted to Calcutta and Rs. 20,50,000 to Bombay, at an average of 1s. 7⅞d., tenders at that rate receiving 68 per cent. As compared with last week's result, this shows a decline of 5-32 per rupee, but it is about what was generally anticipated here yesterday. Bar Silver is quoted at 51⅞d., equivalent to about 1s. 7⅝d. per rupee, but according to private advices the market is weak at that, and there are evidently willing sellers of the metal, yesterday's P. and O. steamer from Southampton bringing shipments to the extent of £60,000, irrespective of £20,000 in gold. For next week's biddings the amount to be offered has been reduced from 45 to 40 lacs. Why such a reduction should have been made it is difficult to say, unless Government hope thereby to give a steadier turn to the market. In the face of the enormous possibilities of the Conference, however, such a movement is quite unimportant, and so it has been regarded here to-day.

EXCHANGE this morning opened dull with a partial decline of 1-32d., but owing, doubtless, to its being mail, day, a somewhat steadier tendency was apparent at the close. The extent of business done has been limited both in Bank and private paper, and the general tendency at the moment is unquestionably to anticipate lower rates. We quote at the close :—

Bank Bills on demand	1s. 7 25-32d. per rupee		
Do. telegraphic	1s. 7¾d.	"	
Do. 3 months sight	1s. 7 29-32d.	"	
Credits, 3	"	" ..	1s. 8 1-32 to 1-16d. "
Documents, 3	"	" ..	1s. 8 1-16d. "
Francs, 3	"	" ..	Rf. 11[illegible] "

On Calcutta we still quote demand ½, sixty days sight 13-16 per cent. discount.

GOVERNMENT PAPER has been quieter again to-day, and only a limited business has been done. Fours have receded to Rs. 102 3-16, Fours-and-a-half to Rs. 109⅜.

SHARES.—Banks are all unchanged, as also are Land Companies, with the exception of Colabas, which are Rs. 15 higher at Rs. 960. Press shares are generally steady. Fort are Rs. 50 lower at Rs. 2,725, but New Indian are Rs. 2½, Prince of Wales Rs. 25 per share higher. Spinning and Weaving Mill shares continue in request, and a further general advance of Rs. 10 to Rs. 20 per share is quoted.

COTTON to-day has been rather a stupid market. Notwithstanding the adverse character of the home advices, a fairly active demand has been manifested for Dholleras, and prices, if anything, are the turn dearer. The purchases are estimated at about 3,000 bales, and had prices been as weak as yesterday, even a larger business would have been done. We quote :—

Good Broach, ready	Rs.	190	per candy.
Good Omra, May	"	170	"
F. G. F. .. "	"	167	"
G. F. "	"	157	"
Good Dhollera "	"	178	"
F. G. F. do. "	"	172	"
G. F. do. "	"	165	"

SEEDS and WHEAT are unaltered.

FREIGHTS, although not particularly active, continute very firm. For Liverpool we still quote 37s. 6d. by Canal, and other ports are unchanged ; but there is still a very active demand for May loading, and 42s. 6d. United Kingdom or Continent is being offered without leading to business. It is in sailing ship tonnage, however, that the scarcity is most apparent, very few vessels being now available loading before the monsoon. For Liverpool the Khersonese,—the only iron ship on the berth,—is being held for 50s.

PIECE-GOODS are quiet with no changes in price. Stocks are still heavy, and the tone on the whole dull.

COALS are quiet but firm with no sellers to arrive.

Messrs. C. MARCKS & COMPANY,
OF
BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts and the joints become loose, altering the focus of the glasses, and so injuring the eyes ; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminum cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12-lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE, and OPERA GLASSES may be used for hours without causing the eyes to ache.

Mr. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test

TELEGRAMS.

THE WAZIRI EXPEDITION.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, MAY, 5.

Tribesmen are showing themselves on the hills in Waziristan, and shots have been fired at General Kennedy's force, but nothing serious has occurred. It is expected, however, that skirmishing will take place during the next few days; but as no unity exists among the malcontents, no considerable resistance is anticipated.

(FROM THE PRESS COMMISSIONER.)

SIMLA, MAY 5.

The force halted on the 2nd May in the Khyssara Valley, while a survey party visited Khandigha. Some of the Maliks from Wano, Shakai, and Badar came into camp.

APPLICATION FOR THE ARREST OF CAPTAIN ARCHER.

(BY REUTER'S INDIAN TELEGRAPH.)

CALCUTTA, MAY 5.

An application was made to-day to the Police Magistrate by the Directors and a few shareholders of the Imperial Silver-Lead Mining Company for the arrest of Captain Archer and Mr. Falvey *alias* Joshua Keens for criminal breach of trust in respect of 2,500 shares sold by them. A second charge against Captain Archer is the embezzlement of Rs. 1,400, and Rs. 200 received by him at Surat, and Calcutta, from applicants for shares on Tuesday week, the date when he actually left for Europe, giving out that he was going to the mines. The Magistrate questioned the validity of the charge on the ground of the company's probable indebtedness to Captain Archer. The application was refused.

THE Maharajah of Kashmir is prosecuting his grape-growing and wine-manufacturing projects with much vigour. Mr. Ermens, superintendent of His Highness's agricultural and horticultural works, returned from France by the last mail with two practical vintage masters who are to superintend the grape-pressing and wine-mixing process next cold weather. A fine growth of grapes is expected, and Mr. Ermens fully anticipates being able to manufacture some excellent wines. The white wines—champagne and sauterne—promise especially well. These are from French vines planted in Kashmir two or three years ago. Mr. Ermens took with him to France a large number of cuttings and seeds of Kashmir vines, which are of a hardy class, and which the French growers hope will help them to combat the destructive phylloxera by grafting French vines upon Kashmir stems. We hear the Maharajah is not unlikely to enter upon another industry shortly, in the shape of weaving Kashmir wool by machinery imported from Europe.

THE Bombay season reports for the week ending the 27th April show that there has been slight rain in the Southern Maratha Country, Sholapur, and Satara. In Jacobabad damage has been caused by inundation. Cattle disease is severe in Sind. Public health has slightly improved, and there has been one case of cholera in Ahmedabad.

A CORRESPONDENT writes as follows to an Allahabad paper:—"Will the manager of the Rajputana State Railway make a note of the following?—A large amount of goods was ordered from England *via* Bombay to Agra, the other day, to see if they could not be landed at Agra cheaper than *via* Calcutta. Although the route is so much shorter, the railway charges made the cost 30 per cent. higher than *via* Calcutta and the E. I. R., and the goods were actually a fortnight longer in arriving."

THE Bangalore *Daily Post* has been very badly hoaxed. Under the heading of "A duel at Bangalore" it published the following sensational paragraph:—"For some days past rumours have been flying about Bangalore relative to a duel alleged to have been fought between two young officers attached to the cantonment. From inquiries carefully conducted, we have every reason to believe that the fight actually occurred, and that one of the principals has died of his wounds. Of course, a lady is at the bottom of the unpleasant mystery. We are in possession of tolerably full particulars; but as we happen also to know that the police are on the track, and our indiscretion might defeat the ends of justice, we refrain from publishing the account of the circumstances which has reached us." There is no truth whatever in the report. The paper was thoroughly "sold," and much amusement was caused in the station.

THE *Statesman* advocates compulsory military service on the part of Englishmen in India. Our contemporary says:—"Our population is either too self-indulgent or too indifferent, or it has not realised the dangers to which it is exposed, and has forgotten 1857. The only alternative in view of providing an adequate force for self-protection is a system of compulsory service. With regard, however, to the totally different conditions of our situation here to that of any European population, our system must be moderate and easy beyond anything known in Europe, even in Switzerland. The military obligations of even the Canadian militia are too heavy for the Anglo-Indian community. Their system would be better based on that which Marshal Niel conceived in 1860 for the French mobiles, or on the existing German organization of Landsturm. The population of European descent in India will soon be known from the census; it has been estimated, exclusive, of course, of the English army, at some 100,000 adult males, half of which number is probably capable of bearing arms. In 1857 the numbers of the class were no doubt much less; nevertheless, had every man capable of bearing arms possessed a rifle and a knowledge of its use—had the scattered units received an organization of even the simplest kind—the scenes of that fearful year would never have occurred, nay, the revolt itself would have been nipped in the bud."

A CORRESPONDENT writes to the *Pioneer*:—"Being ever desirous of contributing my mite towards the efficiency of the soldier, whether British or native, I would invite, through the medium of your paper, attention to the following points:—(1) The utter want of protection to the hand afforded by the *tulwar*, with which many of our native cavalry regiments are armed. To convey an idea of the importance of this matter, I would instance the relatively large number of sabre wounds on the hand received by them in the second Afghan campaign; wrist-joints were opened, bones of the palm divided, and fingers cut off, most of which injuries would not have been sustained, I think, had the handle of the *tulwar* been well-protected. (2) The high percentage of sabre wounds of the forearm. To reduce it in future campaigns, I would suggest that the forearms of our native cavalry be encased in suitable armour. A glance at the descriptive numerical return of wounds and injuries in the native cavalry regiments that served in the second Afghan campaign would, I think, satisfy most men that the efficiency of their arm of the service can be increased in the direction indicated."

THE returns of the census operations in British Burma furnish the following figures:—Arracan.—Males, 3,84,045, females, 257,963; total 562,008, against a total of 484,363 in 1872, thus showing an increase of 77,645, or 16 per cent. Pegu.—Males, 1,249,346, females 1,081,061, total 2,330,407, as against 1,662,658 in 1872, or an increase of 668,349, or 40·2 per cent. Tenasserim.—Males, 431,270, females 380,548, total 811,818 as against 600,737 in 1872, or an increase of 211,091, or 34 per cent. The totals for the entire province are males, 1,984,661, females, 1,719,572; total 3,704,253, as against 2,747,148 in 1872, showing an increase of 957,085, or 34·8 per cent. Rangoon in 1872 contained a population of 98,745; it now contains 132,004, showing an increase of 33,259, or 36·6 per cent. In 1872 the population of Moulmein was returned at 46,472. It is now returned at 53,080, or an increase of 14 per cent.

THE China Trade Report says:—"In the Hongkong opium market the heavy stocks and the slackness of demand usual at this time of year have combined to cause a material decline in Bengal drug. For Malwa the demand has likewise been limited. At Shanghai the business done in all kinds of Indian drug has been of a retail character, and quotations for both Bengal and Malwa show a decided drop. The native opium is interfering with the sale of the Indian product."

KING COFFEE of Ashantee, instead of posing as a bellicose tyrant, and sending threatening messages to the British Governor at Cape Coast Castle, now appears as a very humble suppliant for support and assistance. He declares himself deserted by his allies and tributaries, bankrupt, and only occupied in repairing the damage caused by the expedition of 1874. He further says he is unable to pay the balance of the indemnity then imposed, and cannot therefore have any idea of making fresh war. He disclaims strongly all hostile intentions, and expresses himself prepared to accede to any terms. Indeed, so very desirous is the King of doing the right thing that he begs the British to send him a supply of missionaries and school teachers.

Life of the 14th April heard that the health of Mr. Adam, the lately appointed Governor of Madras, was not so satisfactory as his friends would like, and that he was threatened with a return of the indisposition he had at home a year or two ago. We were sorry to hear the other day from Madras that Mr. Adam was unwell.

IF English landlords understood their own interests, writes Mr. Labouchere, M.P., in *Truth*, they would clamour for the extension of the Irish Land Bill to England. As it is, their rents have fallen, and they will fall still more. If they could obtain one-quarter of the present value of their land in cash as a fine, and three-quarters of the amount of their present rents guaranteed by the country or by the State, they would be exceedingly fortunate.

AN immense number of people made a journey to the Oval on April 9th, to see the final tie for the Football Association Challenge Cup. The match was between the Old Etonians and Old Carthusians, and was won by the latter by three goals to none. A writer in a Society paper states:—"A faster game or fairer play I have rarely seen. The back play of the old Carthusians was especially good, and contrasted at times with that of the Old Etonians, which was decidedly weak." It should be said that the Etonians had neither Bury nor Christian to assist them, so that their team was not quite at its best.

IT has just been decided in a Court of Law at Leipzig that the union of a German Prince with a banker's daughter is a *mesalliance*, and that in consequence the wife, though actually married, cannot take her husband's name and title. Prince Louis, of Sayn-Wittgenstein-Sayn, a highness of the serenest sort, married in 1867 Fraulein Lilienthal, the daughter of a banker in Berlin. In 1876 he departed this life, having had no issue born to him. The present prince, on succeeding his brother in the title, at once brought an action against his defenceless sister-in-law, to restrain her from calling herself Princess of Sayn-Wittgenstein-Sayn, and this action has been decided in his favour.

A STRANGE and unpleasant discovery has recently been made in the Italian Parliament. A young man of fortune and deputy of the Chamber, Signor Teodosio de Dominicio, had run through his inheritance, and the Italian deputies not enjoying any official pay as in France or Austria, he sought for a livelihood in investigating the pockets of the overcoats of his colleagues, left by them in the corridors of the Italian Chamber. The unfortunate Signor, after repeated abstractions had been complained of by deputies, was caught *in flagranti* while taking a hundred lire note from the pocket-book out of a paletot belonging to his colleague, Signor Elia. The explanation attempted by Signor Teodosio de Dominicio, that he merely intended a practical joke, was not found acceptable by the authorities of the Chamber, and in order to avoid public scandal he has been advised to give in his resignation on the occasion of the adjournment of the Chamber for the Easter Holidays.

SCOTCH Liberals are very much dissatisfied, *Life* says, that their patrician leader, Lord Rosebery, has not been made Lord Privy Seal. "His Lordship himself, however, has no wish to obtain a Cabinet office at present, but will wait for a Governor-Generalship."

THE *Pall Mall Gazette* remarks that the existence of compulsory apprenticeship is what the Boers have always denied, and in their denial they are supported by the testimony of all who are acquainted with the country. As regards voluntary apprenticeship, it may be bad or it may be good; but it is well to remember that it exists with the express sanction of the Imperial Government in more than one South African colony. The labour on the sugar plantations in Natal is almost entirely supplied by coolies imported from India, who, on arriving, are indentured to an employer for a certain term of service, becoming liable to fine or imprisonment if they neglect or absent themselves from their work. Many of these coolies have on the expiry of their indentures preferred to remain in Natal. Others have been known after returning home to undertake a second engagement. Zanzibar natives—men, women, and sometimes even children—are dealt with in Natal and in the Cape Colony in the same manner. This may be right or wrong, but at any rate it is done under the British flag. As regards Natal Kaffirs, it may be noted that they have never been allowed to work except under monthly engagements.

AMONG the more remarkable wreaths laid upon the coffin of the late Czar was one of great beauty, inscribed "To the Czar Civilizer," from the lady doctors of Russia. Thirty ladies belonging to the medical profession in St. Petersburg and elsewhere had united in this tribute to the Sovereign under whom their sex was first freely permitted to practice the healing art in Europe. In the United States lady doctors are more numerous even than in Russia. There are at present 244 ladies in America who graduated at the Woman's Medical College of Philadelphia. Dr. Rachel Bodley, the dean of that college, recently instituted an inquiry into the success of its graduates in their profession. 181 of the 244 answered her inquiries. Of these, 30 had abandoned the profession; 98, or more than one-half the remainder, had devoted themselves to the treatment of diseases peculiar to their sex; while 59 were employed as resident or visiting physicians in some asylum, hospital, or school for girls. Springfield, in Massachusetts, and a town in Michigan, have women as "city physicians," and seventy-three medical societies in the Union have admitted women to full membership. Of 50 who were married, 43 report that the effect of the study and practice of medicine had been favourable to the discharge of their domestic duties as wives and mothers. The average income of 76 who furnished particulars was nearly £600 per annum. Four lady doctors are earning from £3,000 to £4,000 per annum.

IT is not strange, remarks *Truth*, that Mr. Gladstone should deeply regret the resignation of the Duke of Argyll, as not only have they been colleagues since 1852, but they have been close personal friends throughout. The Liberal party owes a debt of gratitude to the Duke, for, next to Mr. Gladstone, he certainly did more than any one to expose the flagitious character of the Foreign and Indian policy of the late Ministry, and his scathing indictments, at Leeds and in the House of Lords, of their Afghan blundering were strong weapons in the hands of the then Opposition. His vigorous eloquence, his enlightened views, his practical good sense, and his unflinching pertinacity between 1876 and 1880, entitle him to the hearty gratitude of the country. Besides, the Government can ill spare their ablest debater, one who, indeed, with the exception of the Bishop of Peterborough, has been, since the death of Lord Derby, the finest orator in the House of Lords. The appointment of Lord Carlingford as his successor is, however, in every way admirable. It is a most fortunate accession to the Cabinet he being an Irishman popular in Ireland and more intimately conversant with the manifold problems of the Land Question than any English statesman. His is eminently a statesmanlike mind—calm, courageous, and practical—neither visionary nor pedantic, and he speaks, not indeed with much oratorical force, but clearly, winningly, convincingly. He was more concerned than anyone in planning the Bill of 1870, and his advanced views on the subject are well known.

DURING the Russo-Turkish war the Russian army was victimized by contractors as unscrupulous as those who sold paper-soled boots to M. Gambetta's levies. One of these rascals, Polejaief by name, added to his other enormities that of selling the sheep-skins to the Turks which he failed to supply to the army of liberation in Bulgaria. After the war, when his iniquities were brought to light, he mysteriously disappeared. The police hunted for him in vain. Twelve months passed away, and the disappearance and the misdeeds of Polejaief were almost forgotten when a richly ornamented coffin arrived at St. Petersburg, said to contain the mortal remains of Polejaief. This coffin, after solemn funeral rites, was committed to the grave, and honest men lamented that so great a scamp had escaped his deserts. Last month, however, St. Petersburg was startled by a telegram from Koursk announcing that Polejaief had been arrested at Rybinsk, the pretended funeral being merely a dexterous ruse to throw the police off the scent.

La Presse, writing on the subject of the Panama Canal, expresses its opinion that the time allowed by M. de Lesseps for its construction is too short, and that twelve years instead of seven will be required, according to his own calculations of the working time. As, however, the writer considers that these calculations are based on false hypotheses, he does not believe that even this time will be sufficient. Objection is taken to the arrangements made with the contractors, MM. Couvreux and Hersent, which are characterised as most expensive and dangerous. Again, it takes exception to the statement of M. de Lesseps, that "the problem of the American canal is comparatively simple." It gives extracts from the reports of various engineers, in which the difficulties of the work are described as "immense," "almost insurmountable," &c., and quotes the opinion of Sir John Hawkshaw, who considers that the necessity of keeping the trenches dry during the progress of the work would increase the cost and delay the completion to an extent which it is impossible to calculate beforehand.

GOD SAVE THE QUEEN.

PRINCE'S DOCK.—The s. s. Ellora entered, and Winton left, the dock yesterday.

A VAGRANT.—Thomas Smith, a European, was yesterday declared a vagrant by Mr. W. Webb, and was ordered to be sent to the Government Workhouse.

CRICKET MATCH.—A cricket match will be played to-day on the Esplanade at 11 A.M., between the Government Telegraph and Æsculapian Cricket Clubs.

ACTING CHIEF PRESIDENCY MAGISTRATE.—Mr. W. Webb assumed his duty as the Acting Chief Presidency Magistrate and Revenue Judge yesterday, and took his seat at the Fort Police Court, in the room of Mr. C. P. Cooper on leave.

AN OLD OFFENDER.—Isram Luximon, a noted character, was yesterday convicted by Mr. W. Webb on two separate charges of theft of articles of wearing apparel, belonging to two different parties. He was sentenced to an accumulated term of eight months' rigorous imprisonment.

ACCIDENT.—Five sweepers' children while playing in a newly built chall at Parsee Bazar, Upper Colaba, yesterday, were seriously injured by the roof of the building falling in on them. They were conveyed to the G. T. Hospital, where three were admitted. One of them had sustained a fracture of the skull, and is in a precarious state.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 25th April was Rs. 16,69,492. In addition silver received during the week, Rs. 52,417. New coin paid during the week Rs. 4. The balance left was Rs. 17,21,905. There is in addition silver bullion valued at Rs. 11,851 belonging to private individuals deposited in the Mint vaults and awaiting assay.

CRIMINAL BREACH OF TRUST.—Mr. Little, of Messrs. Hearn, Cleveland, and Little, appeared yesterday on behalf of Mr. Kessowjee Naik before Mr. W. Webb, at the Fort Police Court, and filed an information against a Marwaree broker named Baloo Ramcrushna, charging him with cheating and criminal breach of trust in respect of a sum of Rs. 4,000 obtained by the accused under false pretences from the informant in a certain opium transaction, and prayed that a warrant may be issued for his arrest. The magistrate at first declined to issue a warrant, but on its being represented that the accused, having no immoveable property in Bombay, might abscond, his Worship granted the application.

ASSAULT.—A Hindoo mendicant named Bhoddass Ramdyal was yesterday charged before Mr. W. Webb with assaulting Mr. L. M. Fernandez, a Port Trust employé, about eight days ago. The circumstances of the case are these:—The prisoner encroached upon the Port Trust property by placing a stone idol in a corner. The complainant requested him to remove it, but the prisoner declined to do so, and on being remonstrated with, took up the idol and struck the complainant on the head with it. The prisoner was convicted and sentenced to two months' rigorous imprisonment. Mr. Little, of Messrs. Hearn, Cleveland, and Little, appeared for the prosecution on behalf of the Port Trustees.

ARRIVAL OF TROOPS FROM KURRACHEE.—The B. I. S. N. Co.'s steamers Ellora, Captain S. W. Seaward, and Sirdhana, Captain G. N. Brown, towing the I. G. sailing ship Czarwitch, Captain A. Gwyn, arrived in Bombay harbour yesterday from Kurrachee, which port they left on the 2nd instant, with 6 European officers, 1 lady, 2 children, 3 hospital assistants, 13 native officers, 361 men, 252 followers, 416 horses, and 232 ponies, of the 2nd Bombay Light Cavalry; and also one native officer, 3 followers, and 1 horse, of the 3rd Sind Horse; 1 sergt., Commissariat Dept., and 3 native officers, and 1 follower, of the 15th Regiment N. I. The following are the names of officers:—Lieut.-Col. O. W. Macnaghten, Major J. G. Fagan, Captain C. A. Owen, Captain W. U. D. Jones, and Surg.-Major Barry; and Mrs. Owen and two children. The troops disembarked at the Prince's Dock and are encamped on the Esplanade until the 8th instant, when they will be sent to Poona by special trains.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ending Tuesday, 3rd May, was 463, being 24 more than in the previous week, 40 less than the week ending 4th May, 1880, and 103 less than the mean of the corresponding period in the preceding five years. During the week 308 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 35·42. There were 117 deaths from remittent fever, being 3 less than the previous week and 60 less than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 73, 34, and 11, respectively, as compared with 45, 13, and 16 last year. There were 5 deaths from cholera last week as compared with 1 in the week previous. The following remark is appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

Holloway's Ointment and Pills.—Sudden changes of temperature sorely try all persons prone to rheumatism, sciatica, tic doloreux, and many maladies scarcely less painful, though of shorter duration. On the first attack of stiffness or suffering in any muscle, joint, or nerve, recourse should immediately be had to fomenting the seat of disease with hot brine and rubbing in this remarkable Ointment, which will assuage the uneasiness of the part, subdue inflammation, and reduce the swelling. The Pills, simultaneously taken, will rectify constitutional disturbances and renew the strength. No remedy here tofore discovered has proved so effective as the Ointment and Pills for removing gouty, rheumatic, and scrofulous attacks, which afflict all ages, and are commonly called hereditary.

ADDITIONAL PASSENGERS BY THE HOMEWARD MAIL.

A MEMBER OF THE BOMBAY BAR SUSPENDED FROM PRACTICE.

THE members of the Bombay Bar having brought to the notice of the Chief Justice and Judges of the High Court certain admissions made by Mr. Ardasir Byramjee Kapadia, in his examination before Mr. Justice Bayley, a private inquiry regarding the matter was held in Chambers on the 8th and 22nd February last before Sir M. R. Westropp, Chief Justice, Sir Charles Sargent, Mr. Justice Bayley, Mr. Justice Melvill, Mr. Justice West, Mr. Justice Birdwood, and Mr. Justice Nanabhoy Haridas. Mr. Ardeshir Kapadia was admitted as a member of the English Bar in Michaelmas Term, 1872, and subsequently as an advocate of the Bombay High Court. The inquiry was connected with the affairs of the East India Bank, of which Mr. Kapadia was some time ago one of the official liquidators. On Tuesday the learnèd Judges met in the Judges' consultation room at 3 p.m., when their Lordships' decision was read out. Mr. Budroodin, instructed by Messrs. Hearn, Cleveland, and Little, appeared for Mr. Kapadia. The Advocate-General was also present. The judgment was as follows:—

The members of the Bar of the High Court recently brought to the notice of my colleagues and myself certain admissions made by Mr. Ardasir Byramji Kapadia, who was admitted as a member of the English Bar in Michaelmas Term, 1872, and subsequently as an advocate of the High Court of Bombay. The East India Bank, a joint stock company formed in 1864, went into voluntary liquidation on the 31st August, 1866, when Kasambhai Dharamsi and Byramji Khursetji Ghandi were appointed its liquidators. On the 10th of April, 1876, those persons were, upon certain legal proceedings taken against them by Purshotum Valabdas, a shareholder, removed, for misconduct, from their office of liquidators by order of Sir Charles Sargent, and Ramanath Raghunath Khote and Mr. Ardasir Byramji Kapadia (already mentioned) were then appointed official liquidators of the East India Bank in lieu of the gentlemen removed. The remuneration of the new liquidators was fixed at 2½ per cent. on such assets of the Bank as should be received by them. On the 14th May, 1879, Rahimbhai Khimji, a shareholder, presented a petition for the removal, on various grounds, of Mr. Dinanath R. Khote and Mr. Ardasir B. Kapadia from their office of liquidators, which matter was first heard by Mr. Justice Green during several days in the months of November and December, 1879; but he, in consequence of the severe illness which compelled him to return to England, was prevented from giving judgment in the matter, which, therefore, was subsequently re-heard, on his notes of the evidence and the affidavits and exhibits, by consent of the parties, by Sir Charles Sargent and myself on the 19th of June, 1880. An order was on that day made for the removal of Mr. Dinanath R. Khote and Mr. Kapadia on the ground that they had omitted to bring to the notice of the High Court an important transaction between Nasirvanji Ardasir Wadia and Kessowji Naik in relation to the affairs of the Bank, and that they had been indiscreet in their conduct as liquidators in having private transactions in money and shares with Kasambhai Dharamsi (one of the previously removed liquidators and a debtor to the Bank) and for other indiscreet conduct, and for being wholly under the influence of Nasirvanji Ardasir Wadia. But it was then held that no corrupt conduct had been proved against them such as the petitioner had charged, and he consequently was awarded only two-thirds of his costs.

On the 1st of July 1880, Mr. A. C. Turner, the Official Assignee of the Insolvent Debtors' Court, was appointed by Sir Charles Sargent to be sole official liquidator of the East India Bank in lieu of Mr. Dinanath R. Khote and Mr. Kapadia removed. The same order directed Mr. D. R. Khote and Mr. Kapadia to "hand over (to Mr. Turner) all books, vouchers, receipts, letters, memoranda, papers, writings, copies of extracts from documents, and documents relating to the East India Bank and this liquidation, and all monies, securities, and assets of the Bank." Subsequently Mr. Ardasir B. Kapadia being, at the instance of Mr. Turner, in his capacity of liquidator, summoned under sections 131 and 135 of the Indian Companies' Act (X of 1866) to give evidence before Mr. Justice Bayley in relation to the affairs of the East India Bank, made on the 4th October, 1880, in the course of that evidence, the admissions to which our attention has been specially invited by the Bombay Bar. One of those admissions was that Government promissory notes for Rs. 25,000 belonging to the East India Bank had been sold by Mr. Kapadia about the time of his removal from the liquidatorship, of which no entry or other record was made in the books of the Bank. The other admission was that he had drawn interest which had accrued on Government promissory notes belonging to the Bank, and had appropriated such interest to his own private purposes, and that such interest was not credited by him in the Bank's books to the Bank. Mr. Justice Bayley has submitted us, and it is not denied on behalf of Mr. Kapadia, that he (Mr. Kapadia) did not object to any of the questions of counsel which elicited the replies containing the admissions, in which cases the ground that those replies might criminate him, or upon any other ground.

Upon our receiving the communication of the Bar, the Prothonotary, by our direction, informed Mr. Kapadia thereof by letter of the 20th January last, and intimated to him that, should he be desirous to offer to the Judges of this Court any explanation of the statements in his evidence before Mr. Justice Bayley, especially the manner in which he had dealt with the notes for Rs. 25,000 and the sum of Rs. 6,000, either upon affidavit or otherwise, we would give due consideration to any such explanation.

On the 8th of February 1881, Mr. Kapadia and his counsel, Mr. Budroodin Tyabji, and his solicitor, Mr. Cleveland, appeared before all of my learned colleagues and myself; Mr. Turner, the new liquidator, being also, by our direction, in attendance. We had also the advantage of the presence of the Hon'ble Mr. Marriott, H. M.'s Advocate-General, on behalf of the Bar. Mr. Tyabji read to us an affidavit of explanation filed on that day by Mr. Kapadia and was heard on his behalf. The case then stood over in order that Mr. Turner should make an affidavit, with permission to Mr. Kapadia to make or produce affidavits in reply thereto. On the 14th February 1881, Mr. Turner filed an affidavit, in reply to which Mr. Kapadia has produced on the 22nd February three affidavits, viz.—one by himself, one by Parmanand Lilladhur, a stockbroker, and another by Byramji Darasha, a clerk of Messrs. Hearn, Cleveland, and Little, Mr. Kapadia's solicitors. Those affidavits have been read to us by Mr. Tyabji. We ourselves, on the same day, called for and examined Raghunath Ganpat, a clerk of the East India Bank, who has been cross-examined by Mr. Tyabji, who has again been fully heard on behalf of Mr. Kapadia. We have put some questions to Mr. Turner, and he has been cross-examined by Mr. Tyabji. Mr. Tyabji did not deem it necessary to make any observation upon Mr. Turner's replies to our questions.

We have carefully considered the evidence given by Mr. Kapadia before Mr. Justice Bayley, all of the affidavits already mentioned as made in reference to this particular matter, and the viva voce evidence of Raghunath Ganpat and Mr. Turner given on the 22nd February last.

We do not, however, propose now to discuss in detail the circumstances relating to the sale of the Government promissory notes for Rs. 25,000 belonging to the East India Bank, for, although the admitted facts that such sale was made by Mr. Kapadia, without the knowledge of his co-liquidator, and in the month of June 1880, when the disposal of the motion for the removal of them both from the liquidatorship was imminent, render it of suspicious import on his part, and although we are far from regarding his reasons for resorting to that sale as satisfactory, we think that he has been able to prepared to say that it has been proved to our satisfaction that it was his intention to misappropriate the proceeds of the sale. This being so, it cannot serve any good purpose to enter, on the present occasion, into an elaborate analysis of the 104 folios of oral and other evidence so far as they relate to this point.

We next proceed to the admissions of Mr. Kapadia as to the drawing of interest on the Government notes belonging to the Bank.

The management of the liquidation, especially so far as related to the purchase of and dealing with Government paper, seems to have been left almost exclusively to Mr. Kapadia by his co-liquidator, Mr. D. R. Khote. This was admitted in Mr. Kapadia's evidence before Mr. Justice Bayley and in the 9th para of Mr. Kapadia's first affidavit. (Affidavit of the 8th February 1881.)

Before Mr. Justice Bayley, Mr. Kapadia, in his evidence given on the 4th October, 1880, said: "I used to draw interest from time to time on the notes in the possession of the Bank. I always credited the interest in the books, except upon one occasion of interest amounting to Rs. 6,000. *I did not do so because I kept the money in the safe, I believe;* I kept it with me at the office, I think; I am not sure whether I kept it in my own cash-box or in that of the Bank. I was pressed by my creditors, and so used the money myself. I should have deposited those Rs. 6,000 in the Bank of Bombay. Dinanath Raghunath Khote did not know that I had kept those Rs. 6,000, nor that I had sold the notes for Rs. 25,000." And further on he, on the same occasion, said: "I did not tell Dinanath what I had done with the interest drawn by me." This evidence before Mr. Justice Bayley amounts, as it stands unexplained, to a clear admission by Mr. Kapadia that he had drawn interest to the extent of Rs. 6,000 at least on Government promissory notes belonging to the Bank, and, being pressed by his own creditors, misappropriated such interest to his own purposes, and made no entry in the Bank's books of his having drawn such interest. It remains to be seen whether this admission has been qualified by explanation. In the 17th paragraph of Mr. Kapadia's affidavit of explanation of the 8th February 1881 he says: "I say that the said sum of Rs. 6,000 was the amount of interest due on Government paper, the property of the Bank, and I received the same in the due course of business as one of the liquidators, and I myself informed Mr. Turner of this fact when he took over charge of the assets of the Bank, and the said information was not given to him in consequence of anything that he had discovered." Mr. Kapadia is not, however, supported by Mr. Turner in that statement. From Mr. Turner's affidavit of the 14th February 1881, it appears that the delivery of the assets of the Bank fixed by Mr. Turner for the 5th July 1880 was deferred by Mr. Kapadia (as the latter says, in consequence of his illness, which he alleges to have commenced on the 5th July) until the 12th July 1880, and that, upon the 10th of that month, Mr. Jefferson, (of the firm of Jefferson, Bhaishankar, and Dinsha) informed Mr. Turner that the notes showed that some interest had been drawn on them by Mr. Kapadia. The firm of Jefferson, Bhaishankar and Dinsha, as solicitors for Mr. D. R. Khote (who, Mr. Kapadia having failed on the 5th and 8th July to deliver the assets to Mr. Turner, as required by him, had been called upon as co-liquidator of Mr. Kapadia to make such delivery), had been endeavouring to procure those assets from Mr. Kapadia for the purposes of that delivery, and had obtained from him towards that purpose Government promissory notes to the extent of Rs. 70,000, and it was from inspection of those notes that Mr. Jefferson learned that interest had been drawn on them by Mr. Kapadia. Mr. Kapadia was not present on the 10th July, when Mr. Jefferson informed Mr. Turner of what had been then discovered. The actual delivery of the assets (including those notes) to Mr. Turner took place at the office of the Bank on the 12th July, in the presence of Mr. Kapadia. According to the books of the Bank there ought to have been then in the hands of Mr. Kapadia and Mr. Khote Government notes of the 4½ per cent. reduced loan to the amount of Rs. 64,000 and Government notes of the 4 per cent. loan to the amount of Rs. 31,000, whereas there were then delivered to Mr. Turner Government notes of the 4½ per cent. reduced loan to the extent of Rs. 70,000, and Rs. 25,700 in cash. Mr. Turner, in the 13th para of his affidavit of the 14th February 1881, says: "I therefore at once objected that this was not at all what the books showed to be in the hands of the liquidators, but I was in reply told by Mr. Jefferson and Mr. Bhaishankar that this was all they had been able to obtain from Mr. Kapadia; that they had seen from the notes themselves that Mr. Kapadia had drawn interest thereon in January 1880, and that they found that such interest had not been entered in the books of the bank, and that if Mr. Kapadia could not be got to pay it, their client, Mr. D. R. Khote, would pay the same as soon as it was ascertained what interest had been drawn by Mr. Kapadia and not entered in the books. The said Mr. Kapadia merely said, so far as I (Mr. Turner) remember, that he had sold the notes to meet a claim put forward by one Ahmedbhai Habibhai, but had no account of the sale. He was at this time very ill and said very little." Thus it appears that it was not Mr. Kapadia who informed Mr. Turner that he, Mr. Kapadia, had drawn Rs. 6,000 for interest. Mr. Kapadia, in the 18th and 19th paragraphs of his affidavit of explanation of the 8th February 1881, says: "At the time of the receipt of the said sum of Rs. 6,000 there had become already due to me and my co-liquidator, according to our calculation, upwards of Rs. 5,000 in respect of commission. 19. About this time I was in want of money and considering that a sum of between Rs. 5,000 and Rs. 6,000 was then due to my co-liquidator and myself for commission, and having his consent to take his share of such commission, I thought there was no impropriety in my making use of the said sum of Rs. 6,000, and I accordingly used the same for my private purposes." He then proceeds at some length to show that Mr. Turner cut down the claim of between Rs. 5,000 and Rs. 6,000 for commission to Rs. 3,200, which he alone he allowed. Mr. Kapadia adds (affidavit of explanation, para. 21): "Although at the time we considered we were entitled to a larger sum for commission, yet we waived our right and consented to take a smaller sum." Mr. Kapadia, in the 22nd paragraph of his affidavit of explanation of the 8th February 1881, says: "The reason why no entry was made in the books of the receipt by me of the said sum of Rs. 6,000, is that the exact am

P. W. D. Notification No. 104, dated 11th March, transferring Maj. C. F. Call, R.E., to the Accounts Branch, is cancelled. This also cancels P. W. D. Notification No. 131, dated 8th April, so far as it relates to that officer.

Mr. H. Stuart, Dy. Examr. of Accts., 1st Grade, Bengal, is promoted to Examr., 4th Class, 3rd Grade, temporary rank, from the date of his taking over charge of the Accounts of the Tirhoot State Railway.

Maj. H. R. LeM. Cary, Dy. Examr. of P. W. Accounts, 1st Grade, Central India, is promoted to Examr., 4th Class, 3rd Grade, temporary rank, from April 1881.

The Govr.-Genl. in Council is pleased to confirm the order, Notification No. 31, dated 14th April 1881, of the Government of Bengal, promoting Mr. T. H. Wickes, Exec. Engr., 1st Grade, to Suptg. Engr., Class III, temporary rank, during the absence on deputation of Mr. Martin, or until further orders.

Mr. F. B. Walker, Exec. Engr., 1st Grade, is appointed Engr.-in-Chief of the Patna-Baraitch Railway Survey.

Maj. W. S. S. Bisset, R. E., in Class 1, Grade 3, of the Superior Revenue Estabt. of State Railways, is granted privilege leave for 8 months, from 5th May or such subsequent date as he may avail himself of it.

Mr. J. W. A. McNair, Assist. Examr., 1st Grade, Bombay, is granted leave on medical certificate out of India for 1 year, with the usual subsidiary leave, from 19th March.

The services of Mr. C. E. Housden, Assist. Engr. 2nd Grade, Rajputana, are placed at the disposal of the Foreign Dept.

TO KEEP THE SEA AND SWEEP THE SEA.

ADMIRAL of the Fleet, Sir Thomas Symonds, very pertinently remarks, in a letter to the *Times*, regarding the proposal of Mr. Trevelyan to build a steam cruiser 315 ft. long, with 61 ft. beam, "to keep the sea and sweep the sea," that he "would call attention to the Transatlantic steamers 500 ft. long and over, built for profit, and by those who know what speed means in troubled seas, whose passages across the Atlantic are so punctual and exceedingly rapid. Take the Cunard and White Star lines only, for instance, which make the passages so inconceivably rapidly, carrying coals enough to bring them back and a large cargo besides, both ways. They claim, the White Star, as published, an average of 16·2 knots speed per hour, at the least, for 6,070 miles during 12 voyages, the shortest passages outwards and homewards being 7 days, 10 hours, 53 min., and 7 days, 12 hours 41 min. =15 days or 360 hours,—6,070 miles at 16·80 knots per hour, not on the nautical mile in smooth water. Our cruiser is to go 16 knots, at best, as stated in Parliament, with, I imagine, 900 tons of coals, instead of some 4,000. How could she catch Transatlantics? Our great want in the Navy is, for war cruisers, vessels of vast coal-carrying power, of speed to go to anything, superior, if possible ; only sufficiently armed, with a few most powerful guns and torpedoes, to avoid destruction and insult from unarmoured ships. See Polyphemus without a gun ; a mistake, however. But the main point is that a cruiser should be a mine of coal, so to speak, and of the greatest speed. First catch your hare. The longer she can keep the sea under steam, the more useful would she be. What is a steamer without coals ? And in war-time, seeking coaling places means a desertion of station. Our ships in the Royal Navy are, generally speaking, crammed full of engines, stores, and ballast, with far too little coal-storage, seldom exceeding three days' consumption at full speed. In a head sea they soon lose their speed, from shortness and bluffness of build. I am quite in favour of following, for cruising ships, the plans of the Transatlantic and Australian companies, who are accustomed to very long and rapid passages, and the Atlantic vessels to the worst possible weather also. I do not agree with the prejudice in the Royal Navy against long vessels as unhandy (now torpedoes exist, to add to the great difficulty of running), for in the Mersey they dock these 500 ft. long ships in the darkest nights, and steam into dock in the daylight without a rope to assist. Three hundred and fifteen feet length, with armament, masting, &c., proposed, will not give the necessary coal-carrying power or speed. Except at the measured mile, coals should be measured by thousands of tons, rather than hundreds. I should say 4,000 tons, instead of 900 tons, with 315 ft. length, instead of 315 ft. I feel it my duty to call attention to this most important of all points in an ocean steam cruiser,—room for abundance of coal, with the greatest speed under steam."

The Admiralty have determined to name this armoured cruiser to be built at Portsmouth, the Imperieux. She is to be laid down in No. 11 Dock, so as to be near the material which will be required in her construction. The drawings have not yet been received at the yard, but it is understood that the ship will carry four barbette turrets, two abreast amidships, and the other two fore and aft.

DR. J. COLLIS BROWNE'S CHLORODYNE
IS THE
ORIGINAL AND ONLY GENUINE.

DR. J. COLLIS BROWNE (late Army Medical Staff) discovered a remedy, to denote which he coined the word CHLORODYNE. Dr. BROWNE is the sole inventor, and it is therefore evident that, as he has never published the formula, anything else sold under the name CHLORODYNE must be a piracy.

Dr. J. COLLIS BROWNE'S CHLORODYNE.—All attempts at analysis have failed to discover its composition.

Dr. J. COLLIS BROWNE'S CHLORODYNE.—Vice-Chancellor Sir W. Page Wood stated publicly in Court that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE, that the whole story of the defendant was deliberately untrue, and he regretted to say it had been sworn to.—See *The Times*, July 13, 1864.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effect and wonderful cures, while medical men extol its virtues most extensively, using it in great quantities in the following diseases :—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Whooping Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians, and J. T. Davenport, that he had received information to effect that the only remedy of any service in Cholera was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay :—"CHLORODYNE is almost valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after 18 months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (Dec. 1865,) that in nearly every case I, Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866 :—"CHLORODYNE is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place."

Extract from the General Board of Health, London, as to its efficacy in Cholera :—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Overwhelming medical testimony accompanies each bottle.

IMPORTANT CAUTION.—The Immense sale of this remedy has given rise to many unscrupulous imitations.

N. B.—Every bottle of genuine CHLORODYNE bears on the Government stamp the name of the inventor.
